Section 1: Overview

This section provides a general overview of the budget request and reduction scenarios

Budget Requests:
The process of developing the University’s FY 2017 annual budget will allow the institution to pursue funding for institutional goals, objectives and priorities. These instructions provide guidance for developing your unit’s annual budget request for the fiscal year beginning July 1, 2016 and ending June 30, 2017 (FY 2017). Information provided in your budget submission will be used to assist in the development of Mason’s amendments to the state as well as for local budget allocations for FY 2017.

Budget Reduction Scenarios:
The process of developing the University’s FY 2017 budget includes a requirement that units identify how they would handle budget reductions should they be required. As we continue to find ways to increase administrative efficiencies, it is important for us to receive this feedback should the revenue environment dictate such a revision. We are asking that units indicate how they would revise their budgets under four potential scenarios:

- 0% Reduction – How would you realign current resources in order to address new initiatives?
- 2% Reduction – How would your resources be aligned should a 2% reduction be required?
- 3% Reduction – How would your resources be aligned should a 3% reduction be required?
- 5% Reduction – How would your resources be aligned should a 5% reduction be required?

These instructions apply to non-academic Educational and General and Auxiliary Enterprise units within George Mason University.

Key Information

A new Budget Information and Request System (BIRS) is being used for FY 2017. Designated tabs, one for Budget Requests and the other for Budget Reduction Scenarios will be utilized for this process.

Section 2: FY 2017 Requirements

This section provides details on requirements for budget request submissions

The FY 2017 annual budget requests is a submission of the highest priority which will be a change to your unit’s current FY 2016 funding level. Your unit’s budget requests must be submitted via the on-line Budget Information and Request System and are due by 5:00 p.m., November 18, 2015.

Content of a Good Request

A budget request is a proposal to modify your unit’s FY 2016 funding level. The following elements are contained in a good budget request.

1. Quality - The quality of your submission is important. Remember: Decision-makers may have only your description as a basis for evaluating your unit’s proposal. You will need to thoroughly explain what the proposal involves and why the proposal should be funded. Be as thorough and complete as you can. Be concise but feel free to provide all the narrative you think necessary to fully explain each request.

2. Documented - Be sure to include with your submission any supplementary documents, background information, or other material you think will support your submission and explain your proposal. Please attach the materials with the on-line submission as per the on-line instructions.

3. Complete - You must respond to all the items in the required format. If you do not complete an entry you will get an error message and will be unable to submit your request.

Budget requests are limited to those necessary to meet one of the strategic goals listed below.

Further detailed description for each goal can be found in:

George Mason University Strategic Plan 2014 – 2024

Guidelines

Each budget request should justify an action or strategy proposed to address a critical issue. The action proposed in each request should be evaluated on its own merit, independently of any other proposals. Under certain circumstances, several strategies or actions may be tightly interrelated and cannot be viewed independently. If so, they may be grouped together in one request package. Your budget analyst (http://budget.gmu.edu/staff-listing/) can provide guidance if you have questions about whether to submit a request.

To be considered complete, your unit’s FY 2017 annual budget request submission must include the following major elements.

1. **Description and justification narrative** - For each individual request your unit submits, you must provide a description and justification narrative. The description and justification narrative which explains and justifies your budget request will assist decision makers in consideration of funding the request.

2. **Prioritization** - Your requests must be prioritized in a concluding single list. Please identify those requests that merit the top 1-3 highest priority for your unit.

3. **Category and Subcategory** – Your request should be linked to strategic goals.

4. **Financial Detail** - For each request, the personnel and non-personnel financial requirements must be detailed.
This section provides details on requirements for budget reduction scenarios

Your unit’s budget reduction strategies must be submitted via the on-line Budget Information and Request System and are due by 5:00 p.m., November 18, 2015.
